1. Time/TimeRegistrationInformations (GET)

API Endpoint: Time/TimeRegistrationInformations (GET)

Retrieve timestamp records for employees

1.1 Summary

The **TimeRegistrationInformations** endpoint retrieves time registration data for one or more employees from SoftOne GO. It allows filtering by employee(s) and a date range. The response returns time entries including employee number, code, timestamps, minutes, status, and any associated error information.

5/7/26	6:00 AM	7:00 AM	8:00 AM	9:00 AM	10:00 AM	11:00 AM	12:00 PM	1:00 PM	2:00 PM	3:00 PM

2. Request

This section outlines the structure, parameters, and required data used when making a request to this endpoint.

2.1 Overview

- Method: GET
- URL:

<https://apiexternal.softone.se/Personell/Time/TimeRegistrationInformations>

2.2 Authentication

This endpoint requires **token-based authentication** using a combination of API keys and an access token. where:

- API keys identify the company and integration
- A time-limited access token authorizes access to protected resources

All three parameters are required for successful authentication.

The access token is obtained by calling the **/Login/Token** endpoint and must be included in every authenticated request.

2.3 Parameters

Name	Type	Required	Description
companyApiKey	string	Yes	Identifies the company whose data is being accessed
connectApiKey	string	Yes	Identifies the integration partner / connecting application
Token	string	Yes	Access token used to authenticate the request
dateFrom	date-time	Yes	Start date of the punch entry search interval.
dateTo	date-time	Yes	End date of the punch entry search interval.
employeeNrsStrings	string	No	Comma-separated list of employee numbers. Use "NULL" to retrieve all employees.

3. Response

Each object in the array represents a punch clock entry for a specific employee.

Name	Data type	Description
EmployeeNr	string	Employee number of the individual making the time entry.
EmployeeExternalCode	string	External code identifying the employee.
TimeStamp	date-time	Date and time of the timestamp entry.
TimeStampEntryType	string	Type of entry/punch. Enum: "In" and "Out"
IsBreak	boolean	True if this entry marks the start or end of a break.
AccountNr	string	The account number (SWE: "konteringskod") reported with the time entry/punch. I.e. the cost carrier.
SieAccountDim	integer	Defines what type of accounting dimension the AccountNr represents. Necessary because different dimensions may share the same ID, but not mandatory to use.
TimeTerminalId	integer	ID of the terminal where the entry was made.
Accounts	array of objects	List of connected accounts. Contains <i>AccountNr</i> (string) and <i>SieAccountDim</i> (integer) and is used when there is multiple account dimensions reported.
TimeScheduleTypes	array of objects	List of extents and deductions (SWE: tillägg och avdrag) connected to the timestamp entry. Contains <i>TimeScheduleTypeCode</i> (string) (Please note that the label of the property is somewhat misleading due to historical reasons)

4. Examples

4.1 Retrieve worked hours

GET

```
{{baseUrl}}/Personell/Schedule/TimeScheduleInfo?companyApiKey={{CompanyApiKey}}&&connectApiKey={{ConnectApiKey}}&token={{token}}&dateFrom=2026-05-07&dateTo=2026-05-07&employeeNrsString=104&addAmounts=false&loadSchedule=false&loadPayroll=true
```

The endpoint returns **all payroll rows**, not only ordinary worked hours.

To retrieve actual worked hours, the integration must apply filtering based on the customer's payroll configuration.

In most cases, worked hours are identified by one or more payroll products such as:

- Timlön (hourly wage)
- Månadslön (monthly salary)
- Other customer-specific payroll products

Because payroll configurations differ between customers, the integration must determine which payroll products represent worked time.

5. SoftOne GO UI Mapping

This section explains how the API data relates to the UI/logic in SoftOne GO. It also describes the purpose of the properties in context of SoftOne GO. It helps new integrators connect what they see in the system with what they get via the API.

Navigate to <https://go.softone.se>

EmployeeNr

The endpoint property *EmployeeNr* corresponds to the field *Employee ID* in SoftOne GO, which can be viewed - among other locations – via the following navigation path:

Staff > Employee > Employees

Active	Employee ID ↑	Name	Time agreement	Employment position	Employ. rate	Weekly working hours
<input checked="" type="checkbox"/>	3002	Jacob Ahmetsdotter	Timavlönad	Permanent Position	26,14	10:00
<input checked="" type="checkbox"/>	3003	Tilde Lindström	Timavlönad	Permanent Position	78,43	30:00
<input checked="" type="checkbox"/>	3004	Erika Alicegren	Timavlönad	Permanent Position	10,46	4:00
<input checked="" type="checkbox"/>	3005	Sabina Emmagren	Timavlönad	Permanent Position	52,29	20:00
<input checked="" type="checkbox"/>	3006	Fabian Gustavsson	Månadsavlön...	Permanent Position	100,00	38:15
<input checked="" type="checkbox"/>	3014	Douglas Jensberg	Timavlönad	Permanent Position	52,29	20:00
<input checked="" type="checkbox"/>	3015	Emil Elviraur	Timavlönad	Permanent Position	65,36	25:00
<input checked="" type="checkbox"/>	3018	Molly Lukassdotter	Timavlönad	Permanent Position	15,69	6:00
<input checked="" type="checkbox"/>	3022	Lovisa Emiliasdotter	Timavlönad	Permanent Position	52,29	20:00
<input checked="" type="checkbox"/>	3023	Sara Jennygren	Timavlönad	Special fixed time employment	52,29	20:00
<input checked="" type="checkbox"/>	3024	Beatrice Sandberg	Timavlönad	Permanent Position	52,29	20:00

EmployeeExternalCode

The endpoint property *EmployeeExternalCode* corresponds to the field *ExternalCode* in SoftOne GO and can be viewed - among other locations - via the following navigation path:

Staff > Employee > Employees (open employee card)

Employees | Key figures | Mass update | 3014 - Douglas Jensberg * × + ×

<< < 109 of 157 > >> Search [X] Show inactive

Personal data

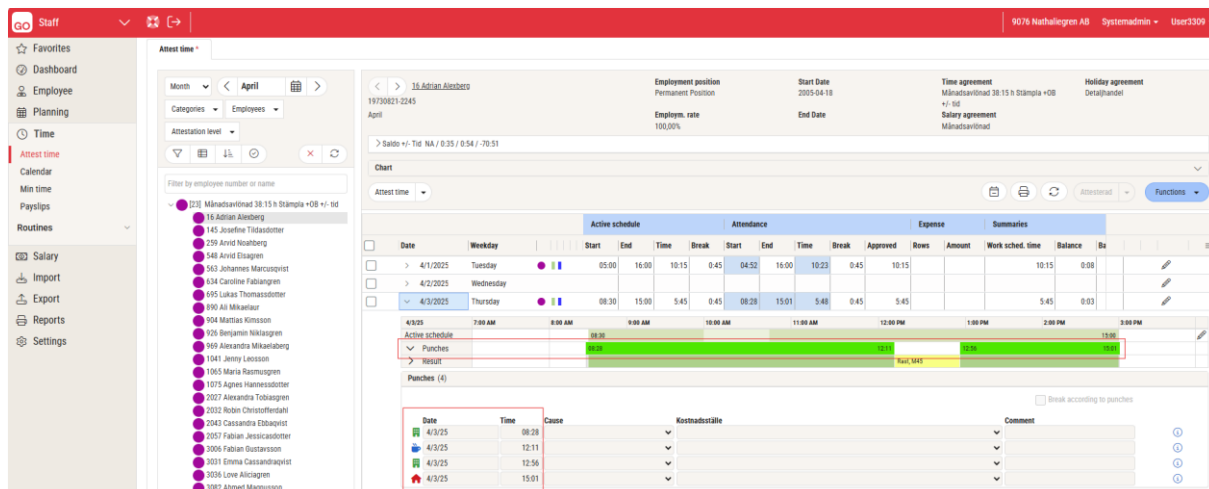

First Name * Douglas Last Name * Jensberg Social Security Number * 20040321-5825 Externalcode 673330

Contact Details

TimeStamp

The endpoint property *TimeStamp* corresponds to *Punches* in SoftOne GO and can be viewed - among other locations - via the following navigation path:

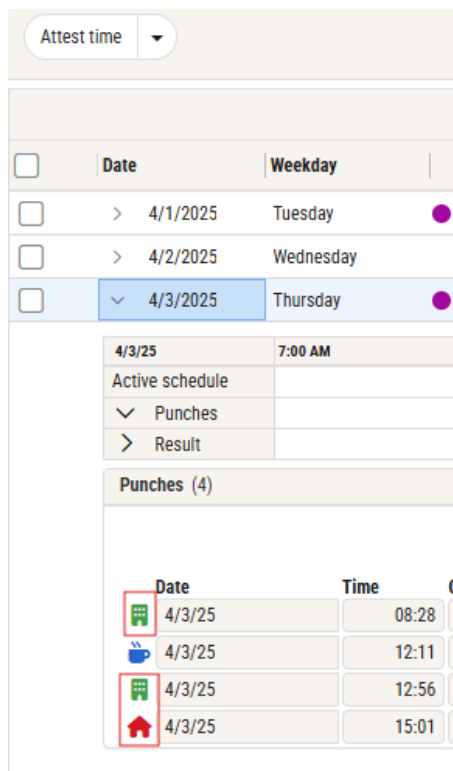

Staff > Time > Attest time (open details for a day row)

TimeStampEntryType

The endpoint property *TimeStampEntryType* corresponds to *In* and *Out* punches that can be viewed - among other locations - via the following navigation path:

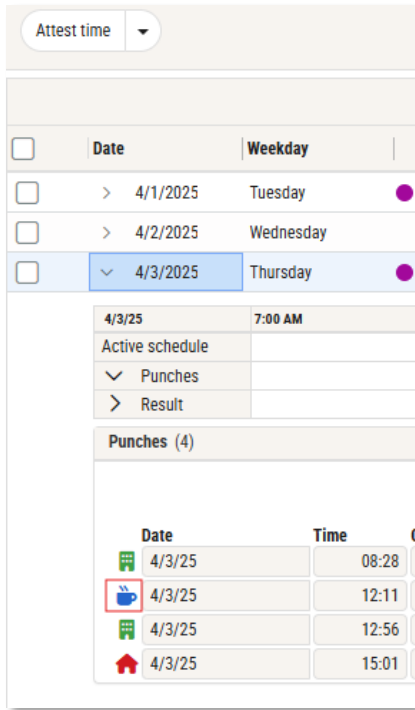

Staff > Time > Attest time (open details for a day row).

IsBreak

The endpoint property *IsBreak* corresponds to *Break* punches that can be viewed - among other locations - via the following navigation path:

Staff > Time > Attest time (open details for a day row).

AccountNr

The endpoint property *AccountNr* corresponds to one of the levels of the *financial affiliation* (if the organisation is using an economical organisation structure in GO) or a *Category* (if the organisation is using a category structure in GO).

In context of time reporting, the user-entered accounting data, defines the deviating cost allocation. It can be cost centre, department, project, etc.)

How the organisation structure is set up is found in the following location:

Finance > Accounting > Coding levels (the example shows an economical structure)

The screenshot shows the 'Region' configuration page. The left sidebar has a menu with 'Region' highlighted. The main content area shows a table with the following data:

Active	Number	Name
<input checked="" type="checkbox"/>		
<input checked="" type="checkbox"/>	1000	Stockholm
<input checked="" type="checkbox"/>	2000	Göteborg
<input checked="" type="checkbox"/>	3000	Malmö
<input checked="" type="checkbox"/>	4000	Sverige Norr
<input checked="" type="checkbox"/>	4500	Sverige Mellan
<input checked="" type="checkbox"/>	5000	Sverige Söder

SieAccountDim

The endpoint property *SieAccountDim* corresponds to the field *SIE Dimension* that can be found at this location:

Finance > Accounting > Coding levels > Coding levels

The screenshot shows the 'Coding Levels' configuration page. The left sidebar has a menu with 'Coding Levels' highlighted. The main content area shows a table with the following data:

Number	Name	Card Name	Sublevel to Coding Level	SIE Dimension
<input type="checkbox"/>				
<input type="checkbox"/>	2	Avdelning	Avdelning	50
<input type="checkbox"/>	3	Region	Region	30
<input type="checkbox"/>	4	Butik	Butik	40
<input type="checkbox"/>	5	Koncern	Koncern	

In context of import from an external system, this property is used to define which level the number sent in on the property *AccountNr* refers to.

TimeTerminalId

The endpoint property *TimeTerminalId* corresponds to the field *Terminal ID number* that can be found at this location:

Staff > Settings > Terminals (open the dialog form of a terminal).

The screenshot displays the 'Terminal' form in the SoftOne Staff application. The form is titled 'Terminal' and is part of a list of 6 terminals. The 'Terminal ID number' field is highlighted with a red box. The form includes the following fields and sections:

- Type:** Attendance terminal (dropdown)
- Name:** 14 (text input)
- Company ID number:** 18145 (text input)
- Terminal ID number:** 7255 (text input, highlighted with a red box)
- Latest sync:** Enter the above values ??in the terminal during registration / login (blue button)
- Settings:**
 - Home page (dropdown)
 - Coding (dropdown)
 - Punching (dropdown)
 - Language and Time (section)
 - Limitations (section)

At the bottom of the form, it says 'Created 5/19/25 11:22 AM by SoftOne (18784)'.

Accounts

The endpoint property *Accounts* is an array consisting of the above described *AccountNr* and *SieAccountDim* and is used when multiple levels are reported.

TimeScheduleTypes

The endpoint property *TimeScheduleTypes* corresponds to the *Attendance time codes and Absence time codes*. The *TimeScheduleTypes* can be consider a way of “tagging” a specific allowance and deductions that in the end will affect the employee’s salary.

The list of attendance time codes can be found at this location:

Staff > Settings > Time > Attendance time codes or Absence time codes

Ac...	Code	Name	Description	Salary IDs
<input checked="" type="checkbox"/>				
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Arbete inom schema	Arbete inom schema	Timlön
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Arbete utanför sch	Arbete utanför sch	Timlön
<input type="checkbox"/>	<input checked="" type="checkbox"/>	ArbTidMånad	Arbetad tid vid månadslön	Arbetad tid vid månadslön
